homematic IP

Starter Set Smoke Alarm

Product ref.: 150788A0

Product features

- Starter Set for reliable detection of dangerous smoke gas via three wireless Homematic IP high-quality smoke alarms and AES-128 security
- Alerts via loud integrated siren and your smartphone with the Homematic IP app
- Alarms are transferred directly between the up to 40 connected Homematic IP Smoke Alarms - this offers interference-proof communication in the entire house, even if the electric installation has been effected by a fire
- Current status display of all connected smoke alarms via smartphone with the Homematic IP app
- Optical scattered-light smoke alarm with Q label – meets the high quality standards according to vfdb 14-01 in addition to the basic standard EN 14604 (certified by KRIWAN test centre)
- Maintenance-free operation of the smoke alarms thanks to a permanently sealed battery with a battery lifetime of 10 years (in accordance with the standard)
- The starter set smoke alarm can be expanded into a comprehensive smart home system at any time together with various different Homematic IP devices
